Re: Status of Young Stone Supply, Inc., Young Browns Canyon Quarry, S/043/019, Summit County, Utah

Dear Mr. Young:

This letter is sent to notify you that your Young Browns Canyon Quarry has reached the limit of disturbance to continue operations as a small mining operation. On September 15, 1999, an inspection was conducted at the Young Browns Canyon Quarry by Lynn Kunzler and Doug Jensen of the Minerals Program staff. As part of the site inspection (copy of inspection memo enclosed), a GPS survey was performed of the disturbed area. The results of the GPS survey showed that the surface disturbance was 5.1 acres. While this amount of disturbance would require this site to be permitted as a Large Mining Operation, the Division realizes that the GPS instruments used for the survey are not 100% accurate and could be off by as much as 0.1 acres.

We are informing you that before you expand your operation any further, you will need to either reclaim a portion equal to or greater than your anticipated expansion; or you will need to submit and obtain approval of a Notice of Intention to Conduct Large Mining Operations prior to any additional expansion. I have enclosed form MR-LMO for your use should you decide to file a large mining notice.

We have not yet received the transfer form which was sent to Robert Hicken on September 10th in order to transfer this project from your name to Young Stone Supply, Inc.

Please contact me at (801) 538-5310 or Wayne Hedberg at 538-5286, if you have questions concerning this letter.

Sincerely,

Lynn Kunzler
Senior Reclamation Specialist
